SUBJECT: ASEAN Data Science Explorers Competition 2017

Organized by the ASEAN Foundation and the Systems, Applications & Products in Data Processing (SAP) Corporation, the ASEAN Data Science Explorers Competition 2017 aims to enhance awareness and appreciation of the ASEAN Community among young people through digital literacy intervention.

This analytics competition will be run at a national and regional level with the use of the SAP BusinessObjects Cloud software. The target recipients of this initiative are university students of any major, including Political Science, from any university in the ASEAN.

This competition is meant for all students regardless of their level of IT knowledge. Contestants do not need to have any programming knowledge to join. The analytics software is user-friendly and easy to learn. As long as they have an analytical mind and enjoy presenting their ideas backed with facts, students will do well in this competition.

All interested teams must register by 16 June 2017 and submit their entries by 11 September 2017. Shortlisting process will take place in the middle of October before culminating in National Finals during November 2017 and the ASEAN Face-Off at the end of November 2017.

In view of this, may we request that you disseminate this information to all concerned? Interested participants may now register at <http://www.aseandse.org/>.

For further inquiries, you may call Ms. Janice Castro at 981-8500 local 2587/2588 or email her at ovcsa@upd.edu.ph. You may also contact the ASEAN Foundation at aseandse@aseanfoundation.org for administrative inquiries or the SAP at aseandse@sap.com for technical inquiries.

Thank you.
