On 19 June 1965 Republic Act No. 4379 was passed providing for the establishment of the University of the Philippines Institute of Mass Communication (UP IMC). Dr. Gloria D. Feliciano was appointed Director, and later Dean, of the Institute. UP IMC was formally established as a non-academic unit on 23 August 1966 offering Journalism courses leading to the AB Journalism degree.

In School Year (SY) 1966-67, the AB Broadcast Communication and the MA programs were instituted. It was also in May 1967 that the Institute graduated its first batch of students consisting of nine (9) AB Journalism majors.

By 09 September 1969, the Institute had transferred from the College of Arts and Sciences to Plaridel Hall.

The third undergraduate program of IMC, AB Communication Research, was instituted on 07 April 1975. Seven years later, in SY 1982-83, the PhD in Communication program was instituted. It was also during this time that the merging of the three undergraduate programs into one BA in Communication program with major in any of the three old programs (Journalism, Broadcast Communication, Communication Research) was undertaken. Likewise the three Master of Arts programs were merged into one MA in Communication program and students could major in Broadcast Communication, Journalism, or Communication Research.

In SY 1984-85, the Film and Audiovisual Communication program was added to the Institute's undergraduate course offerings.

The reactivation of the DZUP under the management of the Institute happened on 01 December 1987.

On 28 April 1988, almost 23 years after it was established, the UP IMC was elevated to college status by the UP Board of Regents; and became the UP College of Mass Communication (CMC).

In 2001, the Broadcast Communication and Journalism programs changed the degree name from MA Communication to MA Media Studies to give emphasis to the study of media as a consciousness industry and as a cultural practice. In 2002, the Film Institute introduced Film as a new area of specialization under the MA Media Studies program.

It was also in 2002 that BA Broadcast Communication and BA Journalism were instituted as separate programs. BA Film was also instituted.

On 31 May 2012, the Master of Arts in Journalism was instituted as a separate Master of Arts program. In the same year, on 30 September, the Doctor of Philosophy in Media Studies was instituted as the second offering under the College's graduate program.

With its recent programs, the College of Mass Communication clearly continues to set milestones in the history and development of the scholarly pursuit of understanding media and communication in the lives of Filipinos today.

UP CMC exists primarily to inculcate and foster awareness of the ethical and social significance of, as well as responsibility in, the use of interpersonal and mass media including the press, radio, television, film, and new technological resources.

PROGRAMS OFFERED

UNDERGRADUATE PROGRAMS

Bachelor of Arts in Broadcast Communication

The undergraduate program leading to a BA in Broadcast Communication recognized by the Commission on Higher Education (CHED) as a Center of Excellence in Broadcasting seeks to provide students with the requisite training to become future broadcast practitioners who are competent, critical, and responsible. At the same time, graduates are enabled to adapt to the changing broadcast landscape in terms of new technologies, new modes of production, distribution, and exhibition of broadcast products.

The CHED uses the Broadcast Communication curriculum as the standard for other broadcast academic programs in the country.

The Broadcast Communication Department has also been active in spearheading alternative terrestrial broadcasting models as well as broadcasting over the Internet through the radio station DZUP 1602 AM and through UPTV Online.

Bachelor of Arts in Communication Research

Being a CHED Center of Excellence in Communication, the program is a showcase of tertiary education in the fields of media and communication in the country. It seeks to develop scholarship, skills, and proficiency among its students by teaching and conducting communication research and by grounding these with practical experience through fieldwork and internship.

The program ensures that its graduates are equipped to contribute to the practice of social research in the academe, in the communication and media industries, and in governmental and non-governmental sectors.

Bachelor of Arts in Film

The Film program aims to contribute to the development of a genuinely Filipino national cinema by producing graduates with a well-rounded liberal arts education as well as creative and technical skills and social responsibility. It is designed to encompass all aspects of film.

The UP Film Institute is the product of the integration of two film institutions in the University in 2003 – the College's Film Department and the UP Film Center. To this day, it is the sole academic body in the country that has full institutional membership in CILECT (The International Association of Film and Television Schools).

Bachelor of Arts in Journalism

The Journalism program, the oldest in the college, gives students a strong grounding in the arts and sciences and equips them with skills currently required by the profession.

Students are trained to be socially responsible and critical professionals – aware of the power and the responsibilities of the

press, committed to defend press freedom, and living up to the highest professional and ethical standards.

The Department of Journalism has pioneered several journalism courses like Journalism Ethics, Environmental Reporting, Business Reporting, Online Journalism, and Investigative Journalism. Its curriculum, comparable to many journalism programs abroad, is used as a pattern by the Commission on Higher Education (CHED) in its design for journalism programs. CHED named the Journalism program a Center of Excellence in Journalism for the 1999-2000 and March 2013-May 2014 terms.

GRADUATE PROGRAMS

Master of Arts in Communication

The program provides a comprehensive and innovative advancement of communication as an academic discipline and professional field of study. It seeks to develop critical inquiry and high-level research by striking a balance between communication research theory and practice.

The MA in Communication grounds the fostering of awareness and responsibility in communication and its application in other disciplines.

Master of Arts in Journalism

Formerly known as MA Media Studies (Journalism), the MA Journalism program is focused on how news gathering, writing, and development shape the socio-economic-cultural-political consciousness of the people and how these forces, in turn, shape journalism.

Master of Arts in Media Studies (Broadcast)

Media Studies is an area of intellectual discourse that produces knowledge about the vast array of evolving global and local technologies, economies, and powers that affect the way people communicate. The MA Media Studies (Broadcast) program is focused on how the broadcast media affect the socio-economic-cultural-political life of the people and how these forces in turn shape the media.

Master of Arts in Media Studies (Film)

The MA Media Studies (Film) program acknowledges the extensive impact of Film and its immense popular appeal. The program provides scholars with a means of closely inspecting and evaluating film as a complex social, cultural, and industrial phenomenon. It also focuses on the study of film vis-à-vis the increasingly urgent issues of globalization and new media technologies. It seeks to instill increased professionalization in Philippine film practice and upgrade local film scholarship.

The program's courses operate on the principle of praxis, wherein theory courses are tempered by the possibilities of real-life applications, and production courses draw from and return to philosophical issues in the conception and evaluation of projects.

Doctor of Philosophy in Communication

The Doctor of Philosophy (PhD) in Communication program aims to provide advanced graduate training in theory, research, policy, planning, and management which would enable qualified students to carry out independent research in communications and related disciplines and to pursue careers in academic, government, and private communication media agencies and communication-related institutions. It offers a platform to attain distinction in the field of communication for professionals in the communication discipline and related fields.

Doctor of Philosophy in Media Studies

The Doctor of Philosophy (PhD) in Media Studies aims to produce new critical knowledge about the media through an emphasis on theorizing about media and culture. The program is designed to produce media teachers and critics who will raise the level of understanding of the part of the media in contemporary lives. By acquiring and producing new knowledge about the media through the program, these teachers and scholars will provoke critical discussions and discourses about the media in their particular locations, be they the academic milieu or the arena of media practice.

ADMISSION POLICIES/REQUIREMENTS**UNDERGRADUATE**

The College offers programs leading to the degrees of Bachelor of Arts in Broadcast Communication, Communication Research, Film, and Journalism. The CMC Departments of Broadcast Communication, Journalism, and Communication Research are designated as Commission of Higher Education (CHED) Centers of Excellence.

The BA programs admit freshman students who qualify through the UP College Admission Test (UPCAT).

Applicants from other schools must satisfy all entrance requirements of the University (see Academic Information Section). In addition, they must have a general weighted average (GWA) of 1.75 or better and pass an essay examination and interview, if applying for admission to the BA Broadcast Communication program, BA Communication Research program, BA Film program, and BA Journalism program.

Students from other units of the University, as well as those from other UP autonomous units, who have completed 30 units of academic courses in the first two semesters may apply for transfer. They must: 1) have a minimum general weighted average or curriculum weighted average (GWA/CWA) of 2.00 in these courses and pass the essay examination and interview, if applying for admission to the BA Broadcast Communication and BA Communication Research programs; 2) have a minimum GWA/CWA of 2.25 in these courses and pass the essay examination and interview, if applying for admission to the BA Film and BA Journalism programs.

Application for admission from other UP System autonomous units as well as from other colleges and universities is open for first semester admission only. Application for shiftees from other UP Diliman units

is open for first and second semester admission, except for the BA Broadcast Communication program, which is only open during the first semester of every academic year.

GRADUATE

The College offers graduate studies leading to the degrees of Master of Arts in Media Studies with specialization in Broadcast and Film, Master of Arts in Journalism, Master of Arts in Communication, Doctor of Philosophy in Communication, and Doctor of Philosophy in Media Studies.

Admission to any of the above-mentioned graduate programs is guided by the University's General Rules for Graduate Programs in U.P. Diliman and the College's Guidelines for Master's Degree Programs and Guidelines for Doctoral Programs.

Master's Programs

An applicant to the MA Media Studies (Broadcast) program must have obtained an average of 2.00 or better from his/her Bachelor's degree. An applicant to the MA Media Studies (Film) program must have an average of 2.25 or better from his/her Bachelor's degree. An applicant to the MA Communication program must have a GWA of 2.00 or better from his/her Bachelor's degree.

An applicant to the MA Journalism program must comply with the GWA required stated in the General Rules for Graduate Programs in UP Diliman, which is 2.00 or better. He/She must have either a Bachelor's degree in Journalism or media-related field and have at least two (2) years experience as a practicing journalist.

The applicant in any of the programs should exemplify a very high degree of accomplishment in the desired field of study, must pass the interview conducted by a distinguished faculty panel, and must pass the written admission examination to be administered by a faculty committee from each program.

An applicant from countries outside of the Philippines must show proof of proficiency in English and/or Filipino. However, if the College's department/institute (where the program is administered) so requires, an applicant must show proof of proficiency in both English and Filipino.

Foreign applicants who obtained their Master's degree abroad must show proof that they passed the standard Test of English as a Foreign Language (TOEFL) with a minimum score of 500 or 250 in the computer-based TOEFL.

An applicant admitted to the MA Media Studies (Broadcast) program who does not have either a Bachelor's degree or work experience in Broadcast is required to take the graduate courses Broadcast 206 (Comparative Laws and Policies in Broadcast Media) and Broadcast 210 (The Producer and the Creative Process) prior to enrollment in major courses. However, he/she may take cognates or electives together with the aforementioned required subjects.

An applicant admitted to the MA Media Studies (Film) program who does not have a background in film is required to take the undergraduate

courses Film 102 (History of Philippine Cinema), Film 110 (Basic Photography), and Film 131 (Narrative Film) prior to enrollment in major courses. However, one or more of these undergraduate courses may be waived if the applicant has both practical experience and a Bachelor's degree in a related field, such as Communication.

Doctoral Programs

The PhD Communication program aims to provide advanced graduate training in theory, research, policy, planning, and management which would enable qualified students to carry out independent research in the discipline and to pursue careers in academic, government, and private communication media agencies and communication-related institutions.

The PhD in Media Studies program offers courses that are more advanced than the MA Media Studies program to produce new critical knowledge through an emphasis on theorizing about media and culture. This program aims to produce media teachers and critics who will raise the level of understanding of the part of the media in contemporary lives.

An applicant to the College's PhD programs must have a Master of Arts degree from a recognized institution of higher learning.

A general weighted average of 1.75 or higher in the Master's studies is required of the PhD applicants.

The applicant should exemplify a very high degree of accomplishment in the desired field of study and must pass a series of in-depth interviews to be conducted by a distinguished panel of PhD faculty of the College. Moreover, the applicant must pass a written admission examination to be administered by the PhD faculty committee to be constituted by the Dean.

An applicant must show proof of proficiency in English and/or Filipino as determined by the Graduate Studies PhD Admissions Committee. However, if the Department/Institute so requires, an applicant must show proof of proficiency in both English and Filipino.

Foreign applicants who obtained their Master's degree abroad must show proof that they passed the standard Test of English as a Foreign Language (TOEFL) with a minimum score of 500 or 250 in the computer-based TOEFL.

An applicant admitted to the PhD programs whose Master of Arts degree was not received from the College is required to take the courses Communication 230 (Concepts and Issues in Communication Theory) and Communication 210 (Approaches in Communication Research) prior to enrollment in major courses. An applicant who does not have a background in Communication is likewise required to take the aforementioned prerequisite courses.

Foreign applicants admitted into the PhD programs who obtained their Master of Arts degree abroad are required to take six (6) units of Filipino language courses as an additional requirement to be taken during the

first year of enrollment or they must show proof of proficiency in the Filipino language.
