		Again, meeting the aforementioned requirements qualifies the applicant to take the assessment exam. It does not yet qualify the applicant for admission to the program.			
		Applicants from BS CS programs of other UP constituent units need NOT have taken the Math 22-equivalent course before being allowed to take the assessment exam, as long as they take (and pass, with required average grades) ALL the required mathematics courses of their program's first year. They do have to take Math 22 once/if accepted to the UP Diliman BS CS program (if no course taken before is equivalent to Math 22)
