SUBJECT : Revised Curriculum for 2018-2019

The systemwide revision of all undergraduate curricular programs to align with the revised UP General Education Program and the newly implemented K to 12 Basic Education curriculum has resulted in the submission of an inordinate number of curricular proposals to the OVPAA for the required review prior to my approval. While the revised curricula that were submitted earlier have been reviewed and processed, a large volume of proposals have just come in or are still expected to be submitted by the CUs in the coming weeks. Since the incoming freshies will be using these new curricula in the first semester, they must be posted before the first day of advance registration of the UP System – which is 2 July 2018 for UP Diliman.

In view of the urgency of the situation and the appeal of some VCAs, I am authorizing all CUs to use the First Year, First Semester courses listed in the new curricula as approved by their University Councils prior to the OVPAA endorsement to my Office. In addition, new GE courses approved by the BOR and reconfigured GE courses approved by my Office may be offered in the First Semester, AY 2018-2019.

In the meantime, the curricular review process continues throughout the First Semester with the goal of having fully approved curricula for all our undergraduate degree programs before the Second Semester, 2018-2019 begins.

SUBJECT: Revised Curriculum for AY 2018-2019 and the Offering of Bridging/Remedial Courses

The systemwide revision of all undergraduate curricular programs to align with the revised UP General Education Program and the newly implemented K to 12 Basic Education curriculum has resulted in the submission of an inordinate number of curricular proposals to the OVPAA for the required review prior to their approval. While the revised curricula that were submitted earlier have been reviewed and processed, a large volume of proposals are still under review and revision. Since the pre-enlistment period for the Second Semester 2018-2019 will be starting in some of the CUs, the courses from the new curricula have to be posted.

In view of the urgency of the situation and the appeal of some VCAs, all CUs are authorized to use the First Year courses listed in the new curricula as approved by their University Councils prior to the OVPAA endorsement to the Office of the President. In addition, new GE courses approved by the BOR and approved reconfigured GE courses may be offered.

In the meantime, the curricular review process continues throughout the Second Semester with the goal of having fully approved curricula for all our undergraduate degree programs before the First Semester, AY 2019-2020.

Units are also requested to offer remedial/bridging courses that are no longer in the revised curriculum but have not been abolished (e.g., Math 17) in light of adjustment problems our students are understandably facing in these first few years of implementation of the K to 12 curriculum. The CU Registrars raised these problems in a special meeting with the Vice President for Academic Affairs.
